***”FUNKTION & PRECISION  
SOM KÄNNES I HANDEN”***

*”FUNCTION AND PRECISION THAT YOU CAN FEEL IN YOUR HAND”*

## Hultafors: precision Swedish tools since 1883.

Ask any craftsman or enthusiast. They are likely to tell you – “If you want the real deal, it must be Hultafors.” You can rest assured that by choosing Hultafors, you are getting a tool that delivers the best possible function, reliability and precision. Tools that can take all the hard knocks, are durable and most importantly, feel right in the hand.

The reason for this is quite simple. We develop all our products in conjunction with professionals and serious users. We understand their environments and listen carefully to their needs. They are involved in testing the products until everyone is happy with the results. For us, this is the only way to be sure that our tools actually work and make the task easier.

The knowledge that we have of the workday and that of other craftsmen and tool devotees is undeniably unique. As is our extensive experience. It all began in Sweden in 1883 when Karl-Hilmer Johansson Kollén designed what is now the world-renowned folding rule. Since then, we have spent 125 years developing and manufacturing tools for tradesmen and enthusiasts. Tools that you can rely on in all situations. Every day.

# SERRATED OUTDOOR KNIFE

Tough and fast, optimized to cut through ropes and straps.

TOUGH & FAST

## SERRATED OUTDOOR KNIFE

This is a knife with a friction grip and serrated blade that is optimized for cutting through hard or tough surfaces as well as ropes and strapping band especially where tension to the item to be cut is applied. It features a unique function for attaching the holster to clothes so that it does not come loose while still being easy to remove. The blade is made from 0.08 inch stainless steel that has been hardened to 57-59 HRC.

Item number	Blade length	Blade thickness	Handle length	Weight
383230 SERRATED OUTDOOR KNIFE	3.6 inch/93 mm	0.08 inch/2.0 mm	4.52 inch/115 mm	4.1 oz/115 g

Handle made from super-durable PP plastic, fitted with a Santoprene friction grip.

The blade is made from 0.08 inch/2.0 mm stainless steel that has been hardened to 57-59 HRC.

The cutting edge has been sharpened in several stages and 60mm/2.36 inches of the blade is serrated to increase cutting power.

A unique function for attaching the holster around a button

Holster made from super-durable PP plastic

Design in Sweden.  
Manufactured in Taiwan.

POWERFUL & VERSATILE  
**EXPEDITION KNIFE**

A durable outdoor knife with a friction grip suitable for tough tasks in the field. The hard-wearing textile beltloop allows up to 3 inch wide belts and is equipped with a pocket for a fire starter. The blade has a scandi grind and is made from 0.12 inch Japanese carbon knife steel, hardened to 58-60 HRC with a rust protective electrophoretic coating to withstand corrosion. The grinded spine of the blade is designed to be used with a fire starter and the engraved scale on the blade is optimized for outdoor activities.

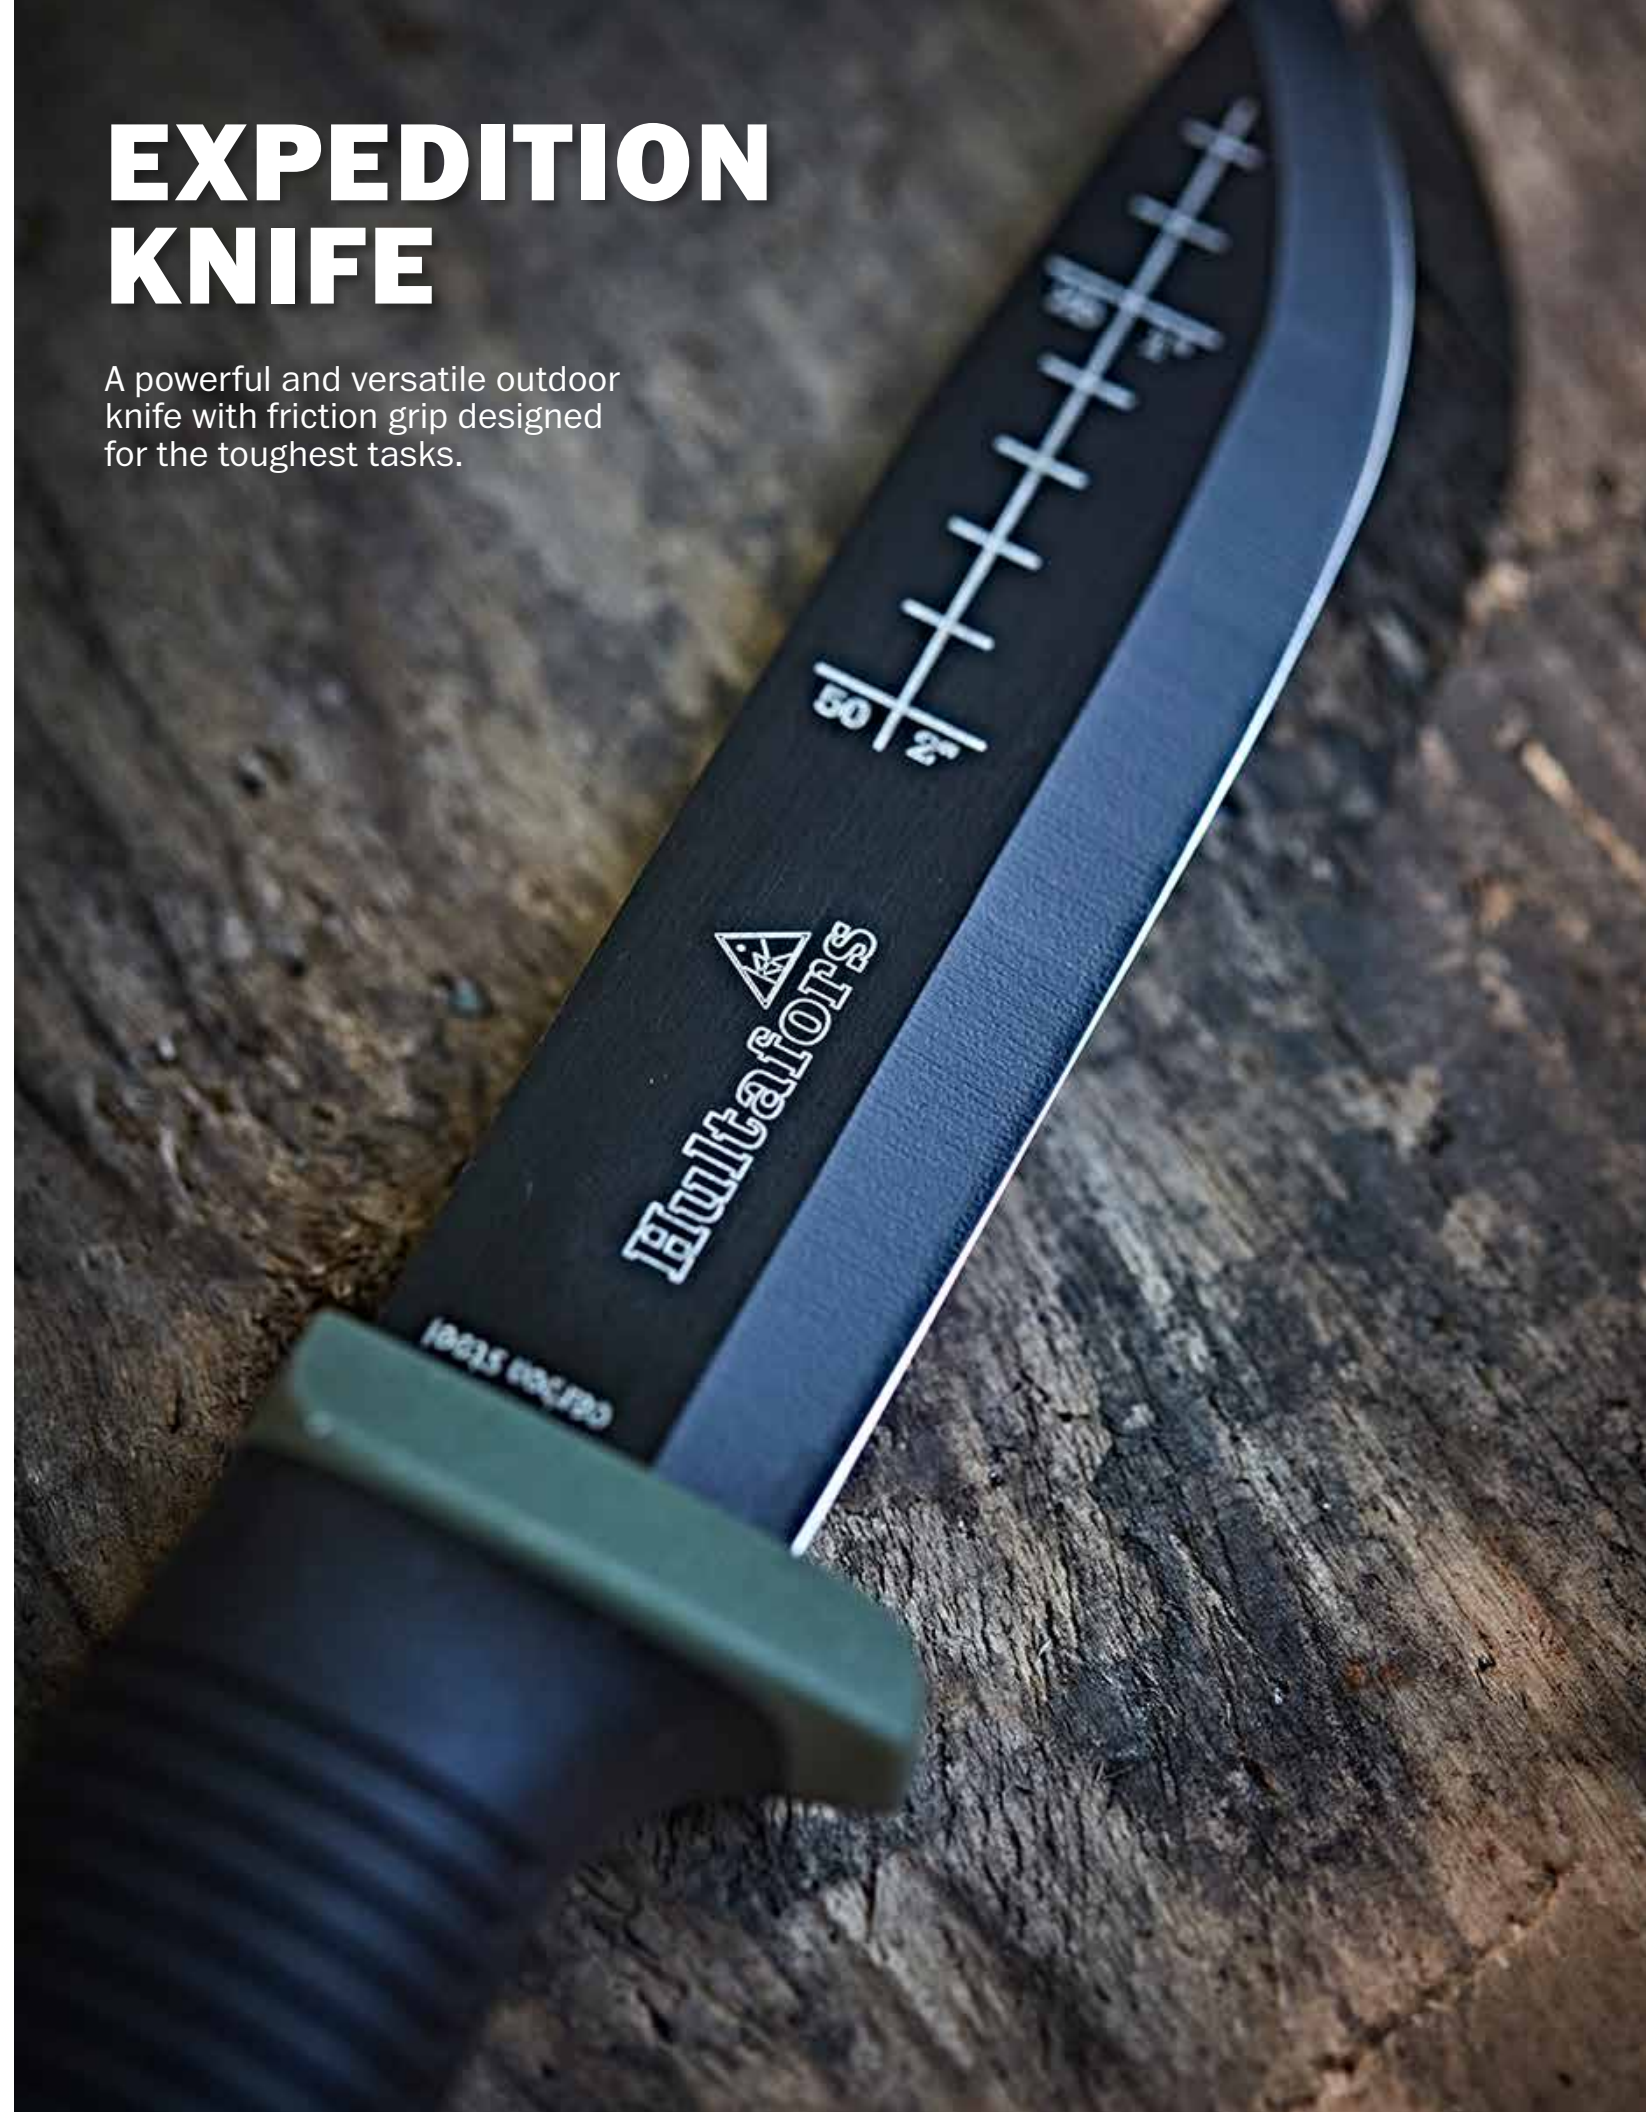

Item number	Blade length	Blade thickness	Handle length	Weight
383270 EXPEDITION KNIFE	3.6 inch/93 mm	0.12 inch/3.0 mm	4.52 inch/115 mm	4.2 oz/120 g

Design in Sweden.  
 Manufactured in Taiwan.
